For a long time, Portiragnes wishes to value the natural heritage, which makes the wealth of the town. Its wetlands allow visitors to observe a fauna and flora protected. Along each of the routes, where you can stroll on foot or by bicycle, the attentive walker will find many migratory birds like flamingos and herons in the middle of reed beds and salt grasslands. For the curious, tours are also organized every weeks. In this atmosphere which remembers the Camargue, you will see herds of horses and "camarguais" bulls. Two miles from the old village, Portiragnes-Plage seaside resort was built in the 1960's, and has since been attractively integrated into the local scenery.
