Saint Pons de Thomières incorporates the Sidobre, Somail and Montagne Noire districts. The town spreads across the heart of the NaturAI Regional Park of High Languedoc in a dale where the Jaur river has its source. The tourist office of the Saint Pons area will enable you, through guided visits, to discover the rich history of the town, with its ramparts surrounding the old cities (Saint Pons, la Ville Mage and Thomieres, La Ville Moindre), the Gascagne tower, the ancient alleyways, the cathedral (with its incomparable organs built in 1771-1772 and second only to those of Notre Dame de Paris).
