To highlight its tourist attractions, the community of communes of La Domitienne has created the tourist centre of La Maison du Malpas.

With free access, La Maison du Malpas opens the way to some unique places - at the foot of the Oppidum d'Ensérune, where the old roman road (Via Domitia) runs along the world famous Canal du Midi.

Within a warm and convivial setting, La Maison du Malpas welcomes you and takes you on a trip through time, to discover some remarkable historical sites: the Gallo-Roman necropolis at the Oppidum d'Ensérune and the dry lake of Montady-Colombiers shaped like a shining sun, or the Tunnel du Malpas, a unique construction and the only tunnel on the Canal du Midi, between the two seas.
