The Clermont L'Hérault region has a multitude of sites to discover, each one more beautiful than the next! Take a look! The Salagou lake transfers you into a unique, magical and metallic landscape. Its neighbour, the 'Cirque de Mourèze', captures you with its ruiniform dolomite scenery. And just a stone's throw away from these two nuggets, the 'Manufacture Royale de Villeneuve' plunges you into a worker's past whose drapery activity can still be guessed. All year round, the Clermontais tourist office offers fully flexible programmes, by the day, all inclusive or for a stay... Contact our group department and organise your next visit to Clermontais.
