Escapeo offers a wide range of activities and nature stays responsive and accessible to all and dedicated to groups and companies.

A great opportunity for you to discover the natural and cultural heritage of Languedoc, and its 'terroir' with a local guide.

A walk to the discovery of the Salagou red relief, a cycle ride to meet the winemakers of the 'Terrasses du Larzac', a hike with donkeys to the surprising circus of Navacelles... a program of activities for half day, full day or longer stay!

A dedicated support and special equipment will be proposed to make them accessible to everyone: 'joëlette', all-terrain electric wheelchair, electric mountainbike...

Activities in the air (climbing, paragliding, flying on a glider) or along water (canoeing, kayaking, sailing, boating) can be organized.
