Headphones with the voice of George Brassens guide you. He whispers some secrets in your ear about his life and his artistic career. His youth amongst friends in Sète, going to Paris, his early days as an artist, a poet, a music writer, poems to music, the women and the recalling of his 'Püppchen' campaign and other references to his songs and a public bench to listen to his songs. A private emotional meeting with the author of 'les copains d'abord' (friends first).
