Site internet : <http://www.latitudeplongee.fr/>

A travelling diving club specialising in personalized diving and diving from the beach, Latitude Scuba Diving Club takes you on dives that are tailor-made for you. Initiation, training or exploration, large or small, from beginner to advanced divers, we adapt to your wishes so that everyone can have a great time.

In the Thau lagoon, in search of the coveted seahorse (hippocampus), you could encounter its cousin the pipefish (syngnathus), the shimmering cratena slug (cratena peregrina), the curious peacock blenny (salaria pavo), the delicate painted tunicate (clavelina picta) or a shoal of salema porgys (sarpa salpa) in full feast. At night, there are eels, cuttlefishes and shrimps that will accompany you on your dive. Here, the diving is 'intimate'. You need to search, observe, wait, browse, explore, pass over once and then a second time. But what happiness after the dive when one was lucky enough to experience these special encounters.

Latitude Scuba Diving Club also offers an introduction to diving in your pool, ideal for a birthday present for children (from 8), a day with family or friends, or just as a way to overcome any initial apprehension.
