Moulins de Faugères - Lieu-dit - 34600 FAUGERES

Site internet : <http://www.tourisme-centre-herault.fr/index.php>

A little corner of Occitania situated half an hour from the beaches (Valras, Cap d'Agde), near the Natural Park of High Languedoc (Lamalou Les Bains) and 15 kilometers from the A75 and A9 motorways.

Composed of 18 villages united by their rich heritage, their tradition of wine and a common culture made up of easy living, conviviality and a sense of sharing.

For an overall view of what makes up our territory, we invite you to climb to the top of the Pic de la Coquillade near by the town of Cabrerolles. From here, you will be provided with a 360° panoramic view of the 'Avant-Monts', with Faugères at its foot and stretching out to Magalas and Roujan.

A work of art! You will view our sun kissed villages, soothed to the sounds of cicadas, perched on top of a hill, lodged in a valley or assembled in 'circulades' around a castle, surrounded by vineyards, almond and olive trees, their paths stretching into the garrigue or Mediterranean forests. Dynamic and welcoming, our villages and their associations offer year-round events and festivities highlighting our traditions, art and heritage.
