The 'Bateaux du Soleil' company invites you to sail on the prestigious Canal du Midi, a protected site of natural beauty and scientific interest, and on the Thau lagoon, a salt water lake and major location of oyster production. Groups are welcome for a few hours' dining cruise, a full voyage of discovery, or just an evening enjoying music from the charts of yesteryear or today. Meetings, work councils, private parties during the day or the night.

Did you know that?

Former boatmen from the north of France created the company in 1985. They were then the forerunners of river excursions on passenger boats in Béziers and Agde. So it's 35 years of adventure that continues in 2020 with the same team and moreover, the next generation is assured!
