Tubing is the descent of the river in individual buoys and paddles. Total freedom of movement for exceptional stability. O'Bouées suggests you to approach this activity in a lazy mode mode to let yourself be led by the rhythm of the currents and/or with a playful side to take advantage of the rapids and water movements. The lightness of the material allows the more adventurous to go up the waterfalls to try different experiences. Forward, reverse, alone, at the queueleuleu, in top, ... only your imagination will set the limits!

You are a group of friends, a family looking for a safe aquatic activity, suitable for everyone and accessible from 9 years old? Tubing will enjoy you!

The activity takes place in total autonomy. You can freely enjoy the river and control a multitude of small rapids. The provided equipment is as follows: a helmet, a life jacket, a buoy and a double paddle.
